TRANSPOREON
A Trimble Company

Freight Audit
Managed Service

In today's fast-paced business world, traditional freight audit methods struggle with the numerous challenges that can negatively impact a company's bottom line. That's why businesses require a freight audit solution which is powerful, precise and efficient. This is where our Freight Audit solution comes in.

By leveraging advanced technologies to automate the audit process, this managed service reduces errors and increases accuracy. Say goodbye to complex, manual freight audit cycles and say hello to a seamless process that maximises productivity and cost savings.

Transporeon Freight Audit allows you to organise, automate and control every task involved to ensure a streamlined freight audit process.

Challenges

INACCURATE DATA
Traditional freight audit faces the challenge of dealing with inaccurate data, which can result in incorrect billing and payments, causing financial losses.

MANUAL PROCESS
Freight audit methods rely heavily on manual processes, which are time-consuming, error-prone and costly.

LIMITED VISIBILITY
Standard freight audit often lacks visibility into shipping data, resulting in missed opportunities for cost optimisation and improved supply chain management.

COMPLIANCE TOPICS
Freight audit must comply with a range of regulations, including customs and trade compliance, which can be complex and challenging to navigate without the right expertise and technology.

Features

〉 **MANAGED SERVICE MODULE**
Freight Audit is fully customisable, offering a tailored experience and additional functionality, with dedicated support for seamless integration into your workflow.

〉 **REAL-TIME ANALYTICS DASHBOARDS**
Get a real-time view of key metrics, such as freight spend, enabling more informed decision making.

〉 **AUTOMATED PROCESSING**
Fully automate the process of invoicing and payment status tracking, reducing the need for manual intervention and minimises errors.

〉 **CUSTOMISABLE REPORTS**
Create custom reports and dashboards tailored to your specific needs, providing you with better visibility into transportation operations.
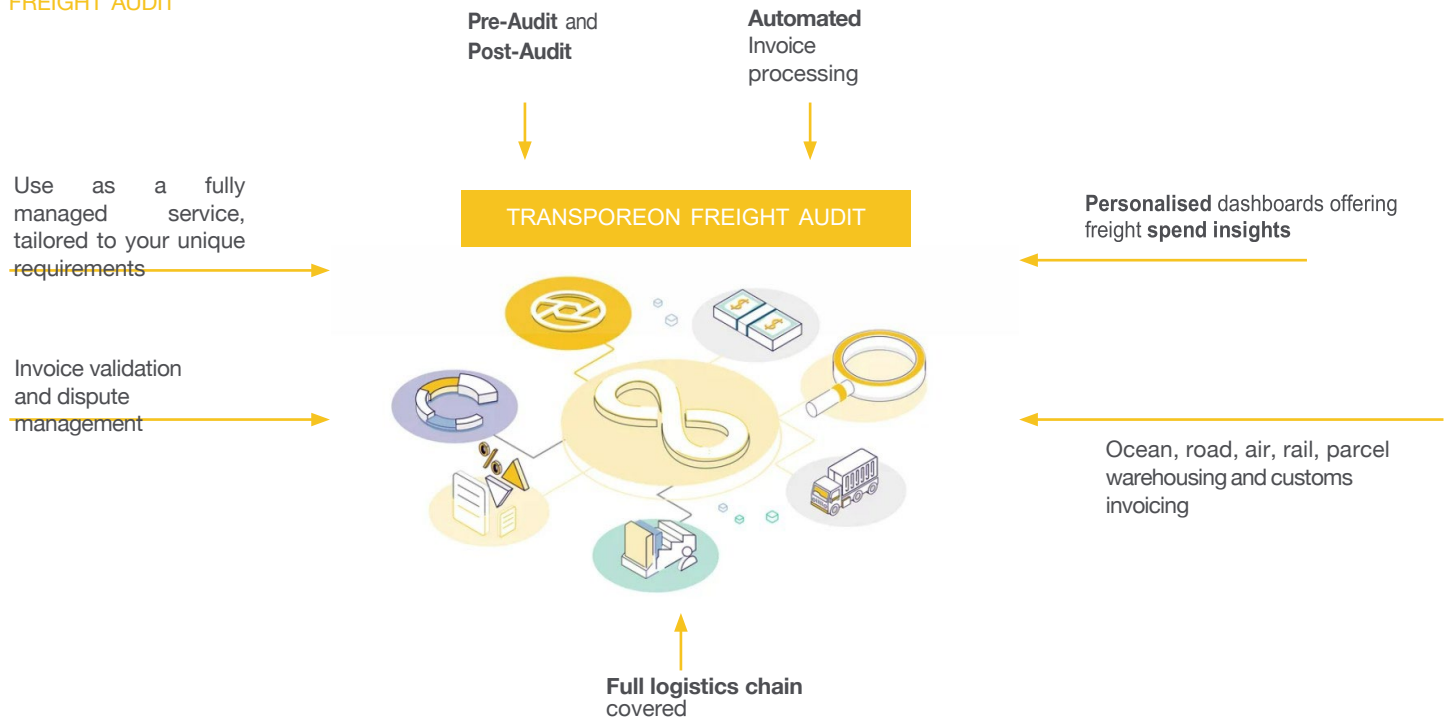

〉 **ONLINE DISPUTE MANAGEMENT**
Manage disputes related to freight invoices or transportation services online, reducing the need for manual intervention.

〉 **OCR SCANNING**
Automatically extract data from freight invoices, saving time and reducing errors

HOW IT WORKS
